

## ***Dynamic Braking Resistors***

### **Terminals**

800 Volt rated - 10mm fitted to PDB 1500 and above - for ease of wiring.

### **Standard Units**

Standard units are shown in the striped sector of the table below. Others available on request.

### **Part Number**

Choose enclosure and Ohmic value required e.g. 3000 Watts, 22 Ohms: Part Number PDB3000-22.

### **Thermal Cut Out**

Thermal cut-outs can be offered - for connecting in the trip circuit of breaker - 230 Volt AC supply.  
Add CO to the end of the Part Number.

### **Ingress Protection**

IP20.

### **Construction**

Perforated Steel, Zinc coated.

### **Finish**

Black powder coating.

### **Mounting**

Suitable for wall or base.
